

Profession Farmer

Results Summary MYSKILLS

Name:

Date of birth:

Test date: 12.02.2018

Test language: English

The test captures professional practical knowledge of the farmer, in five central areas of expertise. The testing is completed by asking questions relating to typical occupational situations, via a PC. The areas of expertise and situations are derived from the prescribed training regulations and curricula. The results follow:

Practical professional knowledge

●●●● High
●●●○ Average to high level

●●○○ Average
●○○○ Not provable, to average

○○○○ Not provable

Rearing sheep, fattening poultry and producing eggs

Rearing, tending and caring for sheep and poultry. Observing animal protection standards and nature conservation regulations, cleaning stalls and monitoring animal health.

Producing oil/root crops and fodder plants, implementing pasture care

Producing root crops, oil fruits and fodder plants. Working and caring for the soil in order to do so. Fertilising plants and protecting them against pests. Harvesting plant products at a suitable time and storing them.

Producing cereals and maize

Producing cereals and maize. Working the soil and sowing plant seeds in order to do so. Fertilising plants and implementing plant protection measures. Harvesting cereals and maize at a suitable time and storing the harvest.

Rearing, breeding and milking cattle

Rearing, tending and caring for cattle. Monitoring the stock and health of the animals, making up feed rations and feeding the animals. Taking breeding decisions and milking the animals.

Rearing, breeding and fattening pigs

Rearing, tending and caring for pigs. Monitoring the birth of piglets, feeding, fattening and weighing the animals. Keeping stalls clean, monitoring the health of the animals and planning and coordinating animal transport.

Results Summary MYSKILLS

Notes on test content

The test consists of 100 questions on typical practical on-the-job situations. At least 20 questions are posed in a closed question format, per field of expertise. The test may take up to 4 hours. The test was developed by experts in various fields. The sub-division into various fields of expertise is oriented along the curricular content of the professional education and training, as well as occupational situations in practice. Practical job situations are represented via text, pictures and videos.

Notes on the interpretation of the results

The test covers practical professional knowledge, by posing questions regarding typical on-the-job situations and challenges.

This cannot be tested:

- Practical application and methodological competence
- Problem-solving skills
- Motivation, self-motivation and/or social skills
- German language skills
