

Profession **Building and object coater**

Results Summary MYSKILLS

Name:

Date of birth:

Test date: 12.02.2018

Test language: English

The test captures professional practical knowledge of the building painter and decorator, in six central areas of expertise. The testing is completed by asking questions relating to typical occupational situations, via a PC. The areas of expertise and situations are derived from the prescribed training regulations and curricula. The results follow:

Practical professional knowledge

●●●● High
●●●○ Average to high level

●●○○ Average
●○○○ Not provable, to average

○○○○ Not provable

Interior and exterior painting

Preparing, covering and designing internal and external walls. Working with typical tools and small machines.

Varnishing objects

Preparing subsurfaces for varnishing work. Processing solvent-free varnishes and varnishes containing solvents using painting, rolling and spraying techniques.

Conducting plastering work

Preparing subsurfaces in indoor and outdoor areas, applying and structuring different types of plaster. Working with typical tools and also operating mixing machines and electric beaters.

Conducting drywall construction work

Producing base structures for drywall construction, installing insulating material and levelling seams and surfaces.

Glueing wallpaper and floor coverings

Wallpapering with ingrain and patterned wallpaper and applying fibreglass wallpaper using the wall glueing method. Working with wallpapering tools. Covering floors and laying simple floor covers.

Conducting insulation work

Cannot be assessed

Preparing subsurfaces in indoor and outdoor areas. Setting plinth and completion rails. Processing insulating materials, closing joints and applying reinforcement fabric and plaster using the usual methods.

Results Summary MYSKILLS

Notes on test content

The test consists of 100 questions on typical practical on-the-job situations. At least 20 questions are posed in a closed question format, per field of expertise. The test may take up to 4 hours. The test was developed by experts in various fields. The sub-division into various fields of expertise is oriented along the curricular content of the professional education and training, as well as occupational situations in practice. Practical job situations are represented via text, pictures and videos.

Notes on the interpretation of the results

The test covers practical professional knowledge, by posing questions regarding typical on-the-job situations and challenges.

This cannot be tested:

- Practical application and methodological competence
- Problem-solving skills
- Motivation, self-motivation and/or social skills
- German language skills
